01

A close-up photograph of a high-performance lineal AC motor. The motor's body is a golden-brown color with a textured, ribbed surface. A pair of silver-colored pliers with black handles is positioned on the left, gripping the motor's shaft. The background is a blurred, warm-toned industrial setting. Overlaid text includes 'POWER' and '10.000 RPM' in the top left, 'HIGH-PERFORMANCE LINEAL AC MOTOR' in the top right, and a page number '02' in the bottom left.
